

EqualLevel

Manager, B2B eCommerce Technical Operations

We are seeking a talented and ambitious professional with an expert level in Procure-to-Pay (P2P) software integration, communication, presentation, and project management skills to join our growing team. In this role, your responsibilities will be:

Responsibilities

- Responsible for all new customer integration implementation projects of the EqualLevel eCommerce Solution in varying degrees of complexity.
- Establish solution implementation project plans with milestones and track to completion.
- Engage with customers to capture customers' business requirements and processes.
- Configure proprietary EqualLevel Marketplace solutions to customer requirements and specifications.
- Develop new integration services for eProcurement and financial systems new to EqualLevel.
- Coordinate with the Product Management team on customer change requests, including bug fixes, implementation productivity enhancement, and new feature requests.
- Coordinate with the Supplier Enablement team to ensure a customer's contracted vendors are established at their highest eCommerce capability, including electronic invoice integration.
- Provide sales support to the Sales team on integration capability demonstration and presentation to prospective customers.
- Contribute towards the continuous process improvement effort to optimize solution delivery.

Requirements

- 3+ years of experience as a software integration developer or project manager.
- 2+ years of experience in eCommerce punchout site integration experience with expert level knowledge in cXML, EDI, and/or OCI standards.
- ERP (SAP, Oracle, Tyler, Frontline, NetSuite, etc.) integration experience.
- Hands-on experience with SAML, XSLT, SOAP, REST, JSON, etc.
- In-depth knowledge of SaaS model delivery.
- Exceptional analytical and critical thinking skills. Ability to take on a task and formulate a plan of approach.
- Ability to work on multiple implementation projects concurrently.
- Ability to establish implementation project plan and track to closure.
- Ability to thoroughly document and produce work products.
- Proficient with Google Apps and/or MS Office suite.
- Excellent verbal and written communication skills to be able to interface with customers directly
